INDIVIDUAL FARMS

Will Be Given Unequalled Opportunities at the Great Blue Grass Fair.

CONDITIONS FOR EXHIBITS

All Kentucky Farmers Eligible to Enter Extraordinary Competitive Exhibit Under Simple Conditions Set Out Below.—Do Not Forget That Entries Close Monday, August 2.

In order to stimulate interest in improved agriculture and to offer opportunity to show to the world the character of farm products grown in this section, the Blue Grass Fair, to be held at Lexington the week of August 9-14, has framed conditions for the following exhibit, which should be one of its most attractive and beneficial features: Exhibit of products from individual farms, not less than six from appended list to be shown, all to be grown by exhibitor, \$100, divided into four premiums—\$50, \$25, \$15, \$10.

From the following list the exhibitor is to choose not less than six products of his own farm to be shown, and it is also understood that exhibitor may show as many more than six as he may desire:

Burley Tobacco—One plant of green tobacco in pot or cut.

Hemp—Three-inch bundle.

Corn in Stalk—Six stalks.

Sorghum in Stalk—Six stalks.

Wheat in Stalk—Two-inch bundle.

Oats in Stalk—Two-inch bundle.

Rye in Stalk—Two-inch bundle.

Barley in Stalk—Two-inch bundle.

Alfalfa—Two-inch bundle.

Red Clover—Two-inch bundle.

Alsike—Two-inch bundle.

Crimson Clover—Two-inch bundle.

Soy Beans—Two-inch bundle.

Cow Peas—Two-inch bundle.

Blue Grass—Two-inch bundle.

Timothy—Two-inch bundle.

Orchard Grass—Two-inch bundle.

German millet—Two-inch bundle.

Potatoes—Selection of six, any named variety.

The exhibits will be judged by points on the following basis: Quality, 60 points; diversity and commercial value, 25 points; arrangement, 15 points.

Where grains are exhibited in the bundle, the judge will consider both quality and quantity.

All samples of grains must be correctly named as to variety. Tags to so designate them will be supplied by the superintendent in charge.

Each exhibit must be arranged so as not to occupy more than five feet of wall space. It is suggested that all exhibits of small grains, grasses and legumes be attached to a board, as in this way a much more effective display can be secured.

In the case of tobacco it is suggested that plants intended for exhibit be grown in pots, though cut tobacco may also be shown.

Where an exhibitor grows both smooth and bearded wheat he may, if he so desires, show a bundle of each and have same count as two of the six articles required to permit his exhibit.

The phrase, "two-inch bundle," used to designate quantity to be shown, means two inches in diameter where tied.

All exhibits will be marked by number tags alone, and no names of exhibitors shall in any case be attached nor shall there be any designation used whereby the identity of exhibitors may be known until after awards are made.

Exhibitors from any county in Kentucky will be eligible to competition.

Entries close Monday, Aug. 2, at 6 o'clock p. m., and no entry will be accepted thereafter.

All exhibits must be placed not later than 6 o'clock p. m., of Saturday, Aug. 7, and no exhibit that is not in place and complete at that time shall be eligible to compete.

Prof. H. Garman of the Kentucky Experiment Station will act as judge.

Prof. George Roberts of the State University of Kentucky, will be Superintendent in charge.

The standing committee for the department consists of Mr. C. E. Marvin, chairman; Prof. C. W. Mathews, Dr. S. H. Halley, Prof. George Roberts, Mr. George D. Karsner.

Though in no sense relating to this exhibit or coming into competition for any of the prizes offered, the management of the Blue Grass Fair is gratified to state that the Kentucky Experiment Station will make a display at the fair on the lower floor of the Floral Hall, where this exhibit will be held. The display will be taken principally from the department of Prof. H. Garman, and will not only include a large number of samples of crops grown on the Experiment Station farm, but will also attempt to set forth intelligibly the insect pests which are a marked detriment to farm crops grown in Central Kentucky and which can be successfully combated by farmers who use improved methods recommended by the Experiment Station.

As in past years, the Blue Grass Fair will continue both day and night during the week of August 9th to 14th. Each evening, beginning at 7:30, a band concert will be given, the full program of free acts will follow, and all the large aggregation of shows will be open.
